

INSPIRED BY NATURE

2021 Jefo Poultry Academy Yosemite Park

About the Jefo Poultry Academy

At Jefo, we believe that sharing knowledge is essential to develop the next era of precision nutrition to reach a healthier circle of life on a more sustainable planet. We also know that nature has influenced and provided amazing insights to scientists that have changed the history of the world. If an apple falling was able to inspire Isaac Newton, we want to offer you a unique opportunity to be inspired by the beauty of outdoors.
